

## OBJECTIVES

Team ID	PNT2022TMID46761
Project Name	Real Time River Water Quality Monitoring And Control System

- River water quality can be monitored by the mobile application.
- The PH level of the water can be monitored.
- Turbidity of the water can also be monitored.
- Water temperature can be monitored. Alerting the authorities if the water quality is not good so that they can go and announce the localities not to drink that water.
